Increase workgroup productivity with fast printing and processing and consistently high performance.

- Accomplish more with print speeds up to 43 ppm with the HP LaserJet 4250 Printer series (52 ppm with the HP LaserJet 4350 Printer series).
- No time is lost waiting for the printer to warm up as the instant-on technology ensures the first page prints out in under eight seconds.
- Be more efficient as a powerful 460 MHz processor lets you print complex documents with a quicker return to the application.
- Create consistent, professional quality output of true 1200 dpi at full speed in best mode.
- Enjoy assured performance with a reliable 200,000 pages per month duty cycle with the HP LaserJet 4250 Printer series (250,000 pages with the HP LaserJet 4350 Printer series)

The simple solution to your workgroup's printing needs.

- A simple, four-line graphical display panel gives you full control of the printer's features.
- Save time and money with HP Web Jetadmin which allows easy network installation¹, remote diagnostics and error correction.
- Remotely configure device settings and email alerts using the Embedded Web Server which gives easy access via a standard web browser.
- Maximise output with a 10,000 and 20,000 page-yield toner cartridge and easily monitor levels of consumables with HP's Smart Printing Technology².

Customise this printer to meet your unique needs with a wide range of expandable options.

- Easily upgrade the standard memory of 48 MB to 512 MB with the HP LaserJet 4250 Printer series (64 MB to 512 MB with the HP LaserJet 4350 Printer series).
- Share fast, reliable printing with an HP Jetdirect 620n Embedded Print Server for Fast Ethernet 10/100Base-TX¹.
- Enjoy flexible connectivity via 2 EIO slots and CompactFlash solutions for most network environments.
- Increase the printer's input capacity to a maximum of 3,100 sheets with additional trays.
- Be more efficient with an optional duplex unit³ for double-sided printing, an envelope feeder and a 500-sheet stapler/stacker⁴.

¹ Embedded networking is available on the n, tn, dtn, and dtnsl models only.

² Using genuine HP supplies ensures availability of all HP printing features.

Boost your workgroup's productivity with exceptional performance

Set a new performance standard with the HP LaserJet 4250 and HP LaserJet 4350 Printer series. Designed to exceed your expectations, these black-and-white printers can significantly enhance a workgroup's productivity with a host of high performance features, expandable options and state-of-the-art accessories. Both series are easily upgradeable, and can be expanded to accommodate future growth, enabling your workgroups to share easily.

These printers operate at very fast print speeds, with a fast first page out and a powerful processor delivering a very swift return to application. What's more, HP's proven and reliable technologies ensure outstanding and consistent print quality, the hallmark of every HP LaserJet monochrome printer. This means you can create effective communications very easily, and have the flexibility to produce high quality documents on a choice of media sizes and types, with a wide range of paper handling and finishing accessories.

Supported by and compatible with the widest range of software applications and operating systems, you will meet those performance targets more easily, whichever HP LaserJet Printer you choose.

HP technologies – solutions you can rely on

Fast results with HP's instant-on technology

Our unique instant-on technology delivers an industry-leading first page out time of less than 8 secs on both the HP LaserJet 4250 and HP LaserJet 4350, from cold or warm start. No warm-up time is needed, and the printer immediately returns to power-save mode without consuming energy, which saves you money. It also has a very low noise level, so you won't get disturbed by your printer.

Outstanding print quality with HP's Smart Printing Technology*

Smart features enhance print quality, facilitate cartridge installation and supplies management:

- Dynamic electrophotographic adjustments and the "no-shake" feature ensure consistent print quality throughout the lifetime of the cartridge
- Supplies status monitoring and proactive email alerts when supplies are low ensure maximum printer uptime and minimum user intervention
- Print job assessment and cartridge usage data tracking enables better cost control

*Using genuine HP supplies ensures availability of all HP printing features

HP's All-in-One Print Cartridge

- The print cartridge is designed as a closed unit containing toner, the drum and the developer unit, so there is only one item to replace. When the print cartridge is exchanged, all components that are critical for the imaging process are also exchanged, ensuring optimum print quality over the life of the printer.
- Fitting an HP print cartridge is extremely simple and requires no technical expertise.
- Magnetic seals prevent toner leakage, keeping the printer and the paper clean.

Print cartridges with charge rollers for a safer environment

HP's charging roller technology uses a roller, which is in direct contact with the imaging drum, and no corona wire. The direct transmission of electrical charges to the drum generates virtually no ozone emissions. And no wire means no manual cleaning, saving you time and money.

Management tools to meet your workgroups' needs

Enjoy easier control

The HP LaserJet 4250 and 4350 series incorporate advanced hardware and software features to make device management scalable – from a critical, single device to a complete network of connected peripherals.

The HP Embedded Web Server provides direct access to the HP LaserJet 4250 and 4350 series on the network and allows full control to configure device settings and e-mail alerts remotely, monitor status, and diagnose device problems

HP Web Jetadmin enables remote driver installation, configuration, diagnostics and proactive management for all your network peripherals from a standard web browser.

Device problems can be resolved quickly with direct access to targeted self-help information via the web.

HP JetCAPs solutions

HP's accessible architecture enables the creation, delivery and integration of a wide range of business printing solutions, developed by our global network of HP JetCAPs partners. Products can be mixed, matched and customised to give you the hardcopy solution you require.

Solutions include:
